The taste is bitter and harsh. Leather skin Be peeled and discarded before eating, although the nut is edible. Ximenia fruits are used for jams, jellies, deserts and as a sweetener for porridge. They are also eaten raw. In addition, the roots and the leaves of the tree can be used for medicinal purposes, such as the treatment of inflamed fever or eyes. XNIPEC The name of this fiery sauce comes from the Mayan words for the nose "dog" or "dog". Xnipec is originally from the Yucatan peninsula, the south-eastern part of Mexico where they still live today, but since then it has made their way To the north of the border. The spicyness of this sauce comes from peppers Habanero, then be careful when preparing and eats Xnipec. Xonocoste as Ximenia, xonocosole is a fruit. It comes from a cactus that presents itself with the same name and grows in central Mexico . It is used in marinated, sauces, mole de olle and even drinks. Sometimes it is also dried or candied before being eaten. The cactus itself is pale green, while the fruit is intense red and grows at the end of the growth In the shape of a shovel. The taste of Xonocoste is acidic and acid. Other from Reference.com during the most young years of Malcolm in Boston and Harlem, he maintained a "Conk" hairstyle, which was a way to chemically relax his hair naturally full. The style It was popular among African American men from the 1920s to the 1960s, despite the risk of chemical burns and the high quantity of care necessary to maintain it. In his last few years, while reflecting on his youth and on the culture of cats is âvelop "cool", Malcolm does not see this as simply an aesthetic choice. Rather, the style is motivated by a deep sense of racial inferiority And adoration for the whole white.
